Our Teaching Approach

- Live, instructor-led classes that move from a first quick cut to a finished short film.
- Hands-on practice every session, with a new editing skill added to a real video.
- Project-based learning, with seven real videos your child edits and keeps.

SYLLABUS

Video Editing Course

10 weeks · 20 classes, from a first quick cut to a finished short film.

MODULE 1 Meet Your Editing Tools

Week 1

- Navigating the CapCut interface, timeline, and workspace
- Importing and organising video clips
- Making a first simple trim

Project: First Cut

MODULE 2 Trimming, Cutting, and Timing

Week 2

- Trimming, splitting, and arranging footage
- Understanding pacing, when to cut fast, when to hold a shot
- Building a clean, watchable sequence

Project: Continuing First Cut into a polished edit

MODULE 3 Text, Captions, and Titles

Week 3

- Adding on-screen text and captions
- Choosing fonts, colours, and styles that fit the video
- Using text to guide, not clutter, the viewer's attention

Project: Text and Captions Video

MODULE 4 Music, Sound, and Mood

Week 4–5

- Adding background music and sound effects
- Balancing audio levels so everything sounds clear
- Syncing cuts to the beat of a song

Project: Music and Mood Video

MODULE 5 Transitions and Visual Effects

Week 6-7

- Using transitions between clips and scenes
- Zoom effects, speed ramps, and simple filters
- Knowing when an effect helps, and when it is too much

Project: Transition Showcase

MODULE 6 Storytelling and Structure

Week 8

- Structuring a video with a beginning, middle, and end
- Basic colour adjustments to set a mood
- Editing a personal, story-driven video

Project: Mini Vlog and Short Film Trailer

MODULE 7 · WEEK 9-10

Levelling Up and Final Project

Moving into DaVinci Resolve, a professional editing tool, then planning and editing an original final short video from start to finish.
